LinearLook™ Modular Matting

Other tile colors available; carpet strips come in black only.

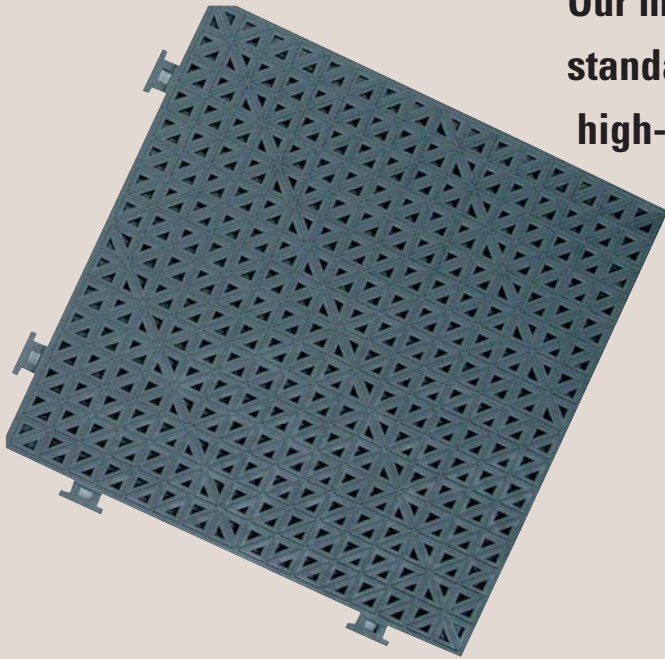

Linear Tiles also create attractive parquet pattern!

 **Sustainable Development** means we buy back at end-of-life!

High Heel Proof Modular Entrance Matting

Our most economical matting! Similar to our standard tile, but smaller openings are high-heel proof!

1/2 INCH PROFILE

Use **High Heel Proof** matting for perimeter areas, with **TuftStuff Geo-Design** tile in power alley.

 **Sustainable Development** means we buy back at end-of-life!

Washboard™ Modular Entrance Matting

Also good for perimeter areas.

Serrated vinyl strips clean shoes!

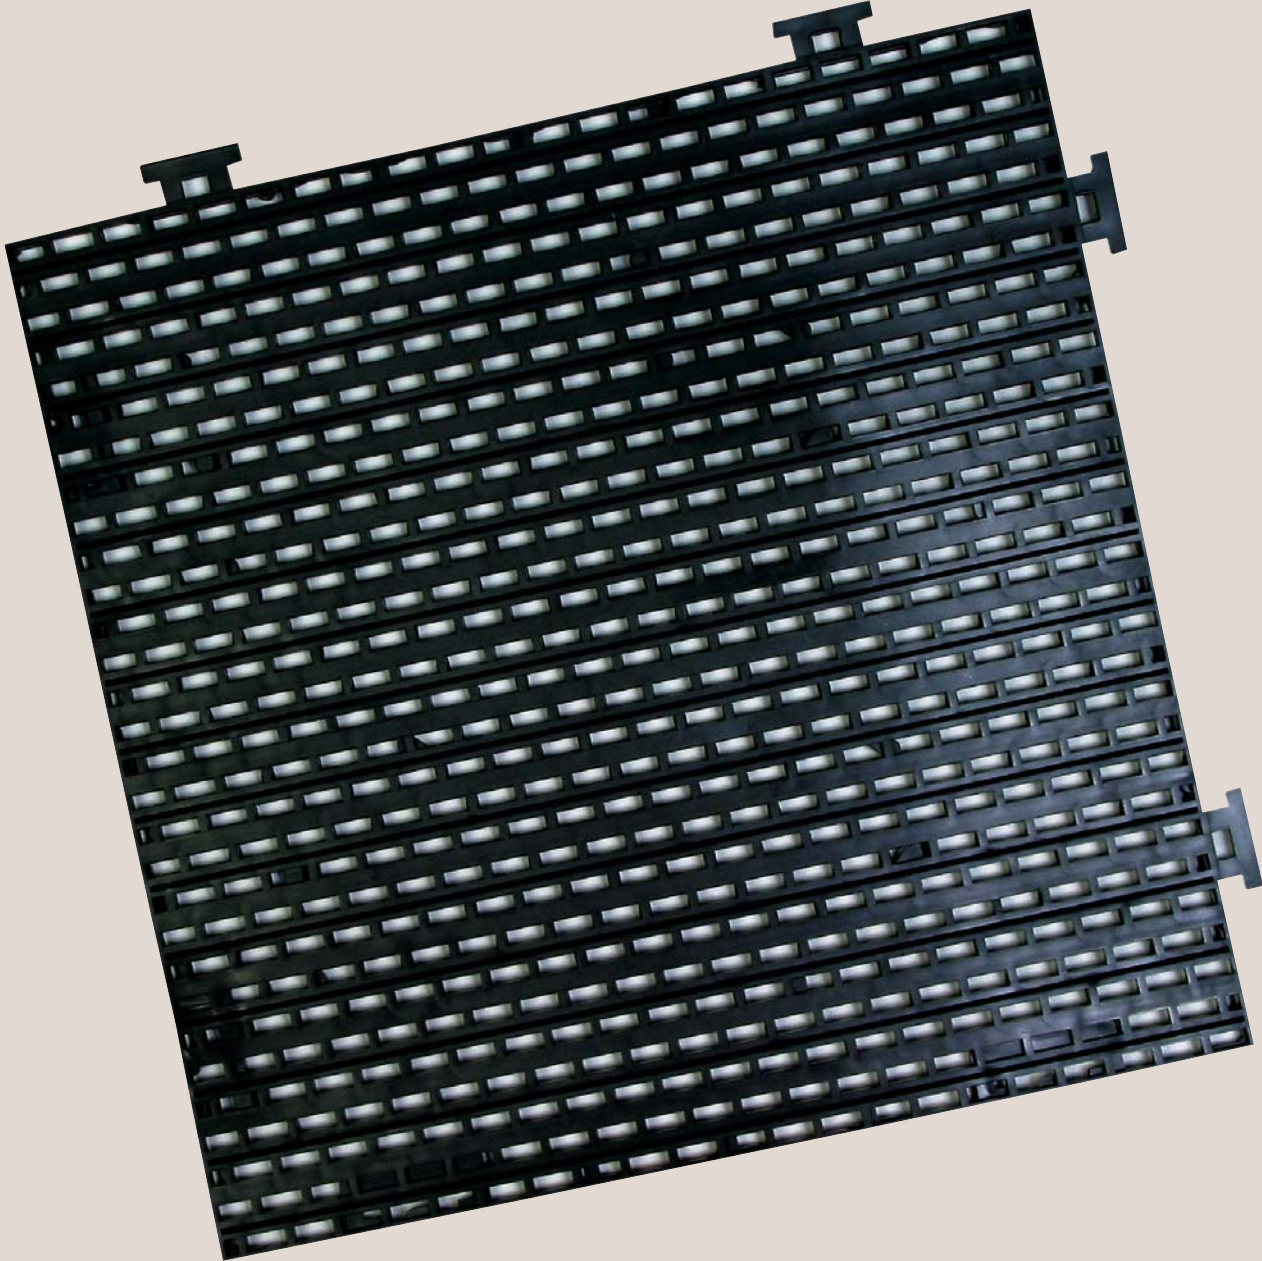

1/2 INCH PROFILE

 **Sustainable Development** means we buy back at end-of-life!

HoleSome™ Modular Entrance Matting

Flat black modular tile with maximum drainage capability,
excellent for very wet areas, and economical, too!

1/2 INCH PROFILE

 **Sustainable Development** means
we buy back at end-of-life!

The Scrapper™ Modular Entrance Matting

The Scrapper does battle with sand, dirt and slush.

Distinctive metallic accents add a touch of class!

Flat linear tile in all black. Or choose chrome, stainless (shown here), brass, or copper color accents.

Custom color accents available to match your decor.

OUR SUSTAINABLE DEVELOPMENT PROGRAM

Officially, what are we as a society, (individual or corporation), going to do with the products that we make at the end of their life? And how do we handle manufacturing residue (i.e. scrap metal, and/or used items such as matting, etc.)?

Are we making products that can be easily recycled? What impact do our products have on the environment? Are they just put in a landfill or regulated waste dumpster? Does our facility produce harmful emissions? What is the environmental impact of what we dump into the sewer?

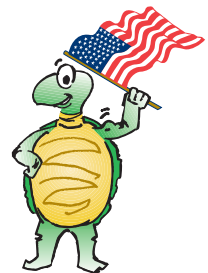

STEP ONE | SELECT A PRODUCT Choose a product for industrial matting and business entrance matting applications. Made from 100% recycled PVC plastic.

STEP TWO | PRODUCT END-OF-LIFE Return your used product to Turtle for a credit. Your old materials are cleaned, ground, treated for contaminants in an environmentally safe process, and re-formed into new matting.

STEP THREE | YOU WIN! Use the credit we issue to save money on purchases of additional matting. Your used Turtle products are cleaned, ground, and re-molded into new products.
