GM-1212-DG	DuraGrit plus Support Webbing (for Food Plants)	Order by square ft.

For Super Soft Add “-SS” To Part #

STEPMAT® Stair System

INSTALLATION

To secure StepMat to existing step, use the corner holes, already pre-drilled and countersunk for leading edge of step. Use bolt, nut and washer at riser edge (hardware not included).

StepMat Stair System can be customized to provide safe, slip-resistant footing anywhere in the plant, indoors or out.
