

Every Emergency Situation Calls For Specialized Tools!

Ladder Crib & Sliding Box Crib

—Another Tool In The DURACRIB® Line Of Products—

Ladder Cribs cut down on the time needed to remove the steering column from a pinned passenger.

Sliding Box Cribs are used in steering column situations, where cribs need to *slide*.

- Easy to carry and position
- Lightweight
- Work with extrication equipment
- Can be positioned where needed
- Available in black and yellow
- Easy to clean

All Turtle Plastics products are made from 100% recycled plastic. They are splinter-free, stronger, lighter and cleaner than oil-soaked wood products. They are easily cleaned and chemically resistant against soaking up oils, fuels and blood-borne pathogens. Try all of Turtle Plastics' cribbing and matting products...Turtle has a better way!

- **Ladder Crib** consists of five 2'x4'x18", or five 3'x3'x18" cribs with 8' rope, weighs only 38 lbs.
- **Sliding Box Crib** consists of four 4'x4'x18" cribs, weighs only 32 lbs.
