

## Capability Statement

Turtle Plastics<sup>®</sup> is a woman owned, US based, niche manufacturer of stabilization products. Our mission is to help organizations protect the health and safety of employees and the public, while increasing sustainability by reducing negative environmental impact by manufacturing with **100% recycled plastic**. Our stabilization products are used worldwide in many industries including aerospace, industrial, heavy equipment, military, rescue, transportation, and utility.

## Company Data

Company Type: S. Corp., woman-owned  
Incorporated: March 22, 1982  
CAGE#: TBD  
DUNS#: 54376751  
NACIS: 326199 (all other plastics product manufacturing)  
SIC: 3998 (misc. mfg. not elsewhere classified)  
UNSPSC: 13111063 (recycled resins)

## Key Products

## Our Qualifications

- ✱ Forty years of innovative product design and manufacturing of products made from **100% recycled plastic**.
- ✱ Our stabilization products are saving lives as our products are the safer alternative to the dangerous use of wood to stabilize equipment or for rescue maneuvers.
- ✱ We were first to market in the development of recycled plastic stabilization blocking.
- ✱ We hold design and utility patents for several products. Our team members are OSHA 30 certified.
- ✱ We provide exceptional customer service and warranty our products for complete satisfaction.
- ✱ We offer a buy back program of our Turtle Tile at the end of product life.
- ✱ We provide complimentary technician training and facility wood audit services.
