

## SAFETY PRODUCTS FOCUSED ON COMPLIANCE

When used correctly, many of the Dura Crib®, Dura Stat® and Turtle Tile® products can help an organization stay OSHA compliant and prevent injuries or fatalities.

- Dura Crib® products can control hazardous energy creating “Lock Out Tag Out” under *OSHA 29 CFR 1910.147 LOTO*, compliant maneuver when stabilizing equipment or machinery.
- Dura Crib® products can control hazardous energy creating “Lock Out Tag Out” under *MSHA 30 CFR § 57.14105 LOTO*, compliant maneuver when stabilizing equipment or machinery. Certain Dura Crib® products provide appropriate jacking under *OSHA 29 CFR 1910.178(k)(3)* to support a semi-trailer and prevent upending during loading or unloading when the trailer is not coupled to a tractor.
- Certain Dura Crib® and Dura Stat® products can assist under *OSHA 1910.178 (m)(7)*, chocking to prevent movement of trucks, trailers, or railroad cars while loading or unloading.
- Certain Dura Crib® and Dura Stat® products can assist under *OSHA §§1926.452(w) and 1926.453*; when used to stabilize scissor lifts and aerial lifts.
- Flooring is an often overlooked as a potential workplace hazard. OSHA recommends that walking surfaces have a slip resistance static coefficient of friction of 0.5. Turtle Tile® meets and exceeds the standard. In addition, Turtle Tile® assembled with our safety ramps in contrasting colors can provide visual cues to help prevent trips and falls or to delineate safe walking pathways.

## SAFETY PRODUCTS WITH A FOCUS ON TRAINING

Training and education of our distributors and end-users of our products are of the utmost importance. We continue to invest in platforms for providing education of environmental, health and safety initiatives. Through our partnerships, you will find our products in use from Fortune 500 companies to local fire departments, as well as in great educational organizations such as the Tire Industry of America, Illinois Fire Service Institute, World Rescue Organisation, and the North American Vehicle Rescue Association.
